

# Translucents™ Canopies

Translucents Canopies

See LEED report tool at [usgdesignstudio.com](http://usgdesignstudio.com) for detailed sustainability information.

## Features and Benefits

- Pre-formed curved panels.
- Available in twenty décors and twenty-four color gallery colors.
- Whimsical elegance for retail, office, health care or hospitality environments.
- Three easy-to-use elements; wave, vault or valley.
- Individual suspension or connected groupings for ribbons or larger spaces.
- Greater design flexibility in combination with Translucents™ Lay-In Panels.
- Sophisticated hardware for perfect fit and finish.
- Four simple connection/suspension points for fast, trouble-free installation.
- Preformed canopies—no additional hardware or field adjustments necessary.
- Translucents encapsulated panels have a minimum of 40% recycled content.
- Acrylic canopies have up to 50% recycled content.
- 100% recyclable material; may contribute toward LEED credits in MR 2.1, 2.2, 4.1 and 4.2.

## Applications

- Gaming
- Hospitality
- Healthcare
- Retail
- General office

[usgdesignstudio.com](http://usgdesignstudio.com)

This product is produced to order and will vary from batch-to-batch — panels ordered at the same time will be produced together and will be identical. USG cannot guarantee batch-to-batch consistency.

### Code approval

Translucents panels meet Class B requirements for flame spread and smoke developed as defined by ASTM 1264 and as tested in accordance with ASTM E84. (40/175) USG Translucents panels also meet Class A requirements of NFPA and IBC (UBC) as interior finishes, not to be part of an air supply/return system. Designers and installers are advised to consult a fire protection engineer, NFPA 13 and their local codes for guidance where automatic fire detection and suppression systems are present.

### Seismic applications

For installations on projects designated seismic design category C-F, suspension wires that are a minimum of no. 12 gauge galvanized, soft-annealed, mild steel wire shall be used. Please refer to SC2494 for more information about the seismic guidelines for specialty and decorative ceilings. Because codes continue to evolve, check with a local official prior to designing and installing a ceiling system. Other restrictions and exemptions may apply.

### Weight

Approximately 2 lbs./sq. ft. (Woven, Textiles, Shimmer, Natural, Industrial, Embossed)

### Recycled content

100% recyclable.  
Woven, Textiles, Shimmer, Natural, Industrial panels: min. 40% recycled content, 100% recyclable.  
Embossed panels: 50% recycled content, 100% recyclable. Color Gallery: Up to 40% recycled content.
